Category:	[Core] Android Service	Estimated time:	0.00 hour
Target version:	Backlog	Прошивка:	Сток
Имя, модель устройства:	ASUS Nexus 7 (2012)	Е-mail для обратной связи:	
Версия OS Android:	4.4.4		
Root:	No		

Description

Crashlytics detected a new issue.

Object.java in @@

This issue is affecting at least 1 user who has crashed at least 1 time.

More information:

https://fabric.io/droidoncar/android/apps/com.roher.carservice/issues/b1722342a1f7fb7ec456c96007da6674?utm_medium=service_hooks-redmine&utm_source=issue_impact

Details:

This is an Android system-level crash that happened because JVM garbage collection took too long. It was likely caused by an incorrect clean-up of native resources, or because garbage collection occurred while your app was backgrounded. Although this crash cannot be avoided, you can mitigate its effects. For more details, check out the first resource.
