Description

Crashlytics detected a new issue.
MainActivity.java line 593 in @@

This issue is affecting at least 1 user who has crashed at least 1 time.

More information:

https://fabric.io/droidoncar/android/apps/com.roher.carservice/issues/82791404337549510a0d78b3d3bbbf90?utm_medium=service_hooks-redmine&utm_source=issue_impact

Details:

This crash is usually caused by your app trying to display a dialog using a previously-finished Activity as a context. For example, this can happen if an Activity triggers an AsyncTask that tries to display a dialog when it is finished, but the user navigates back from the Activity before the task is completed.
